

Recurrens-Monitoring—Laryngeal Tube Electrode Kit

Fast, simple and safe in application!!

Advantages:

- Prevents possible damage to the vocal chords even better because of soft edges of the electrode.
- Safe mounting on all types of laryngeal tubes, even silicone because of special adhesive coating.
- Easy to mount tightly on the tube without wrinkles because of highly flexible base and electrode material.
- Safe monitoring with best signal quality because electrode material is supremely conductive and has a constant potential.
- Easy sterile handling because of safe packaging.

Art. Nr. 50-5540

Laryngeal Tube Electrode standard
45x 50 mm large
sterile P / 5

Art. Nr. 50-5530

Laryngeal Tube Electrode standard
35 x 50 mm small
sterile P / 5
